

Project Design Phase-II Technology Stack (Architecture & Stack)

Date	03 October 2022
Team ID	PNT2022TMID53263
Project Name	Project - Global Sales Data Analytics
Maximum Marks	4 Marks

Technical Architecture:

- Data is acquired from the given global sales data. It is then cleaned and prepared for analysis.
- The data is then visualized using various visualization plots in IBM Cognos Analytics and a detailed dashboard is developed.
- This is very effective in helping the users to analyse the trends and shares of the market.
